Color Blindness Simulation

Color vision deficiency is a very complex topic, and I could not describe the different causes any better than Wikipedia does, so if you want to learn more, you should check out their [article about color blindness](#).

Dichromacy

The image shows three vertical bars representing color simulation results. The top bar is a light yellow-green, the middle bar is a light orange, and the bottom bar is a light pink. Each bar is associated with a specific color vision deficiency type and its corresponding L, M, and S cone response values.
