# Color Blindness Simulation

Color vision deficiency is a very complex topic, and I could not describe the different causes any better than Wikipedia does, so if you want to learn more, you should check out their [article about color blindness](#).

## Dichromacy

A vertical bar on the left side of the page is divided into three colored sections: a light green top section, a light orange middle section, and a light yellow bottom section. To the right of these sections are three rows of text, each corresponding to a color vision condition. The first row is associated with the green section, the second with the orange section, and the third with the yellow section.
